

Gabor Ulenius

FULL STACK DEVELOPER

Profile

Full Stack Developer at Tietoevry Care, specializing in cloud-native, AI-powered healthcare solutions. Contributing to Finland's largest healthcare data platform (HUS DataLake), improving data accessibility. Proficient in **React, TypeScript, GraphQL, Node.js, Docker, Kubernetes, Terraform, and Azure Cloud**. Worked on LLM-based AI prototypes, including a demo at ICT Days and a diagnostic tool piloted at the New Children's Hospital for faster symptom-based searches.

Employment History

Full Stack Developer, Tietoevry, Espoo

JUNE 2023 – PRESENT

Developing cloud-native, AI-powered healthcare applications for Finland's largest healthcare providers. Working with **React, TypeScript, Node.js, GraphQL**, **PostgreSQL, Docker, Kubernetes, Terraform, Azure Cloud, Databricks** and **Azure DevOps** in **Agile Scrum** teams.

Key contributions:

- Contributing to the **HUS DataLake** platform for real-time healthcare data access
- Built an **AI PoC** to assist doctors in faster diagnosis via medical document analysis
- Developed an LLM-based AI solution for ICT Days, Finland's largest healthcare tech event

Junior Full Stack Developer, Anyhau, Espoo

DECEMBER 2022 – APRIL 2023

Worked on a greenfield web [application for booking animal-related services](#), in collaboration with the 2022 Diili show winner. For providers to list services, and customers to book & pay online. Used **Next.js, Typescript, Material UI**, and **MongoDB**.

Education

Computer Programming, Hive Helsinki, Helsinki

OCTOBER 2021 – PRESENT

Completed a project-based program focused on teamwork, problem-solving, and self-directed learning. Built skills in collaboration, critical thinking, and adaptability for real-world software development.

Interesting projects which I am proud of:

- My [most favourite](#) project is made in a group of four people. A re-creation of Netflix - [Hypertube](#)
- My second favourite project is made in duo, full-stack, a re-creation of Tinder - [Matcha](#)
- My third is made in solo, full-stack, a re-creation of Instagram, fully functional and deployed! [CHECK OUT](#)

A2 finnish language skill, SataEdu, Rauma

NOVEMBER 2016 – JULY 2017

Self-studied Finnish after school now converse comfortably and keep improving.

Certificate

Azure Fundamentals AZ-900, Microsoft

JULY 2023 – AUGUST 2023

Languages

- Finnish** – Fluent conversational, continuously improving technical vocabulary
- English** – Fluent
- Hungarian** – Native
